

ChirpyLearn

Maths That Happens Off the **Screen**

Chirpy Learn is the maths program designed to get children away from screens and into real learning. With printable worksheets, hands-on activities, and guided online support only when they need it, your child builds genuine mathematical confidence - pen in hand, not glued to a device.

Tailored to **Every** Learner

Chirpy Learn generates unlimited worksheets matched to your child's level - encouragement when they need a boost, fresh challenges when they're ready.

Confidence Through **Understanding**

Many children struggle with maths because they click through answers without understanding why. Chirpy Learn breaks that cycle.

By working through problems on paper, children slow down, think carefully, and build genuine understanding - the kind that sticks long after the screen is off.

Circle groups of numbers that add up to 12.

6	7	5	0	8
5	9	9	2	4
1	2	1	1	9
6	5	1	2	1
7	5	8	4	0

Fill in the missing number to balance the equations.

$11 + 5 = 3 + \square$

$3 - 3 = 9 - \square$

$11 + 8 = \square + 4$

Complete the magic square.
Each row, column and diagonal must add up to 15.
